Body	Sport Utility Vehicle	Plant	Detroit, Michigan, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/dodge/durango/2022

8 recalls listed by Transport Canada for this model year

Structure

2026392 13 Aug 2026

Issue: On certain vehicles, the recall repairs completed by an FCA dealer during recalls Y73 and 20A (Transport Canada recall nos. 2021-663 and 2023-090) may not be effective. As a result, another repair is required. On certain vehicles, the rear spoiler could hit the body when opening and closing the liftgate. This could damage the spoiler and cause it to detach from the vehicle. Safety Risk: A spoiler that detaches from the vehicle could create a road hazard for others. Corrective Actions: FCA Canada will notify owners in writing. The corrective actions for this recall are under development.

Label

2024548 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Visual system

2024338 13 Jun 2024

Issue: On certain vehicles, a software problem could cause the rearview camera image not to appear on the display. Canadian regulations require the rearview image to display when the transmission is shifted into reverse gear. Note: For the Grand Cherokee model, this recall affects 2022-2023 Jeep Grand Cherokee and 2021-2023 Grand Cherokee L models. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to take your vehicle to a dealership to update the radio software.

Brakes

2024328 6 Jun 2024

Issue: On certain vehicles, a software problem could cause the electronic stability control (ESC) system not to work. As a result, the vehicles may not meet certain requirements of Canadian regulations. Note: This problem would cause a warning light to display on the instrument panel. Safety Risk: An electronic stability control system that doesn't work could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to take your vehicle to a dealership to update the antilock braking system (ABS) control module software.

Structure

2023090 23 Feb 2023

Issue: On certain vehicles, the rear spoiler could hit the body when opening and closing the liftgate. This could damage the spoiler and cause it to detach from the vehicle. Note: This is an expansion of Transport Canada Recall 2021-663. Safety Risk: A spoiler that detaches from the vehicle could create a road hazard for others. Corrective Actions: FCA Canada will notify owners by mail and instruct you to take your vehicle to a dealership to inspect and, if necessary, replace the rear spoiler.

Powertrain

2022673 23 Nov 2022

Issue: On certain police vehicles, the transmission shifter could slip out of the Drive position while driving. If this happens, there could be a sudden loss of power to the wheels. Safety Risks: A sudden loss of power to the wheels could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and instruct you to take your vehicle to a dealership to replace the shifter assembly.

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] NHTSA recall records (United States), listed for the model year

[4] Cardog market quote, same configuration, 24 live listings, as of 28 Oct 2026

[5] Live public dealer listings on Cardog, as of 28 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
