Issue: On certain vehicles, the front turn signal bulbs could be defective. As a result, the bulbs could crack and the turn signals may not work. Safety Risk: Front turn signals that do not work may cause a person not to recognize that the driver intends to turn or change lanes. This could increase the risk of a crash. Corrective Action: Nissan will notify owners by mail and instruct you to bring your vehicle to a dealer to inspect the lot code of the front turn signal bulbs inspected. All affected bulbs will be replaced.

Listed for the model year, not checked against your VIN. Nissan confirms which apply.
