Body	Sedan	Plant	Marysville, Ohio, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/acura/ilx/2016

3 recalls listed by Transport Canada for this model year

Brakes — 2025685 — 11 Dec 2025

Issue: On certain vehicles, a seal in the brake master cylinder could become damaged. As a result, brake fluid could leak into the reservoir and there could be reduced braking. Safety Risk: Reduced braking can cause extended stopping distances and increase the risk of a crash. Corrective Actions: Acura will notify owners by mail and advise you to take your vehicle to a dealership to replace the brake master cylinder.

Powertrain — 2019272 — 6 Jun 2019

Issue: On certain cars, the right axle half-shaft could detach. This could cause a loss of power to the drive wheels. Additionally, if the parking brake is not applied, this could allow the car to roll away. Safety Risk: A loss of power to the drive wheels or sudden, unexpected movement of the car could increase the risk of a crash. Corrective Actions: The company will notify owners by mail and instruct them to take their car to a dealer to inspect the right driveshaft. If the driveshaft is not fully engaged to the half-shaft, the driveshaft and half-shaft will be replaced.

Airbag — 2016046 — 1 Feb 2016

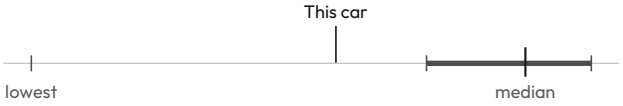

On certain vehicles, the driver frontal airbag inflator could produce excessive internal pressure during airbag deployment. Increased pressure may cause the inflator to rupture, which could allow fragments to be propelled toward vehicle occupants, increasing the risk of injury. This could also damage the airbag module, which could prevent proper deployment. Failure of the airbag to fully deploy during a crash (where deployment is warranted) could increase the risk of personal injury to the seat occupant. Correction: Dealers will inspect/replace the driver's frontal airbag inflator. Note: Honda Canada has created a special Airbag Inflator Hotline for immediate assistance. For more information, please contact: For Honda Owners: 1-877-445-7754 For Acura Owners: 1-877-445-9844

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] NHTSA recall records (United States), listed for the model year

[4] Cardog market quote, same configuration, 13 live listings, as of 27 Nov 2026

[5] Live public dealer listings on Cardog, as of 28 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
