Body	Pickup	Plant	Claycomo, Kansas City, Missouri, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/ford/f-150/2026

8 recalls listed by Transport Canada for this model year

Structure

2026511 20 Oct 2026

Issue: On certain trucks, the left-side tailgate cable may not have been manufactured properly. As a result, when under load, the cable could fail causing the tailgate to drop suddenly. Safety Risk: A tailgate that drops suddenly could increase the risk of injury. Corrective Actions: Ford will notify owners by mail and advise you to take your truck to dealership to replace the left-side tailgate cable.

Seats and restraints

2026482 6 Oct 2026

Issue: On certain trucks, the bolts that secure the driver's seat may not have been tightened properly. As a result, the seat could move or detach in a crash. Safety Risk: A seat that moves or detaches in a crash could increase the risk of injury. Corrective Action: Ford will notify owners by mail and advise you to take your truck to a dealership to inspect and, if necessary, tighten or replace the bolts for the driver's seat.

Lights and instruments

2026480 6 Oct 2026

Issue: On certain vehicles, the speedometer and tachometer in the instrument cluster may not work correctly. Safety Risk: A speedometer that doesn't display the correct vehicle speed could lead you to drive too fast without knowing. This could increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to replace the instrument cluster.

Fuel system

2026432 9 Sep 2026

Issue: On certain trucks, the fuel tank strap(s) may not have been secured properly. As a result, the tank could fall and fuel could leak. If this happens, the engine could stall suddenly. Safety Risk: A sudden loss of engine power could increase the risk of a crash. A fuel leak can create the risk of a fire. Additionally, a fuel tank that separates from the truck could create a hazard for other road users and increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the fuel tank strap(s).

Structure

2026409 25 Aug 2026

Issue: On a small number of trucks, the center high mount brake lamp may not have been properly attached. As a result, it could loosen and separate from the vehicle. Safety Risk: A center high mount brake lamp that detaches from the vehicle could create a road hazard for others and increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to inspect and secure the center high mount brake lamp, as necessary.

Lights and instruments

2026342 14 Jul 2026

Issue: This recall is for certain integrated trailer modules that were installed before delivery or purchased from a dealer as an aftermarket accessory. On certain vehicles, a software problem with the integrated trailer module (ITRM) may cause the trailer lights not to work when towing. This problem could also cause the trailer brakes not to work on certain vehicles. Note: This problem would cause a "Trailer brake module fault" message to be displayed and turn signal telltale to flash rapidly. Safety Risk: Trailer lights that don't work could make the vehicle less visible and cause following drivers not to recognize that the vehicle is braking or intends to turn or change lanes. These issues could increase the risk of a crash. Additionally, a loss of trailer brakes could increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and advise you to take your vehicle to a dealership to update the ITRM software.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 1,946 live listings, as of 28 Nov 2026
[5] Live public dealer listings on Cardog, as of 28 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
