3 recalls listed by Transport Canada for this model year

Airbag

2018027 11 Jan 2018

On certain vehicles, long-term exposure to high absolute humidity and temperature, combined with high temperature cycling, could eventually degrade the propellant contained in the passenger frontal airbag. This could cause the airbag to deploy with more force than normal. As a result, if the vehicle were involved in a collision that warrants airbag deployment, fragments could be propelled toward vehicle occupants, and the airbag assembly could be damaged, preventing proper function. These issues could increase the risk of injury. Correction: Dealers will replace the passenger frontal airbag inflator. Note: Canadian climate results in the propellant degrading slowly. The recall is being conducted as a precaution to address future risk, and is expected to replace airbag inflators before their function would be affected.

Electrical

2014447 9 Oct 2014

On certain vehicles equipped with power heated mirrors, an electrical connector within the door may corrode, potentially resulting in an electrical short. This could result in a burning odour, smoke, or fire, increasing the risk of injury and/or damage to property. Correction: Dealers will modify electrical wiring and install a water shield.

Steering

2013197 7 Jun 2013

On certain vehicles, the power steering return line may wear against the automatic transmission oil cooler line, causing a transmission fluid leak. This would result in a loss of transmission fluid, potentially causing damage to the transmission and resulting in a loss of motive power. This could increase the risk of a crash causing personal injury and/or damage to property. Correction: Dealers will either add a protective sleeve or replace the transmission line.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
