Make	Jeep	Fuel	Gasoline
Model	Compass	Drive	4WD
Trim	Limited	Maker	FCA US LLC
Body	Sport Utility Vehicle	Plant	Belvidere, Illinois, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/jeep/compass/2014

4 recalls listed by Transport Canada for this model year

Label

2017585 28 Nov 2017

Certain vehicles fail to comply with the requirements of Canada Motor Vehicle Safety Standard (CMVSS) 205 - Glazing Materials. The rear lift gate glass panel is labeled with the luminous transmittance number “AS2” instead of the correct number “AS3”. Correction:. No corrective recall action is required as the technical non-compliance condition is deemed to be non-safety related.

Airbag

2016448 14 Sep 2016

On certain vehicles in certain types of crashes, airbag and seatbelt pretensioner deployment capability may be lost due to a short in the front impact sensor wiring affecting Occupant Restraint Controller function. Failure of airbags and seatbelt pretensioners to deploy in a crash (when warranted) could increase the risk of injury. Correction: Dealers will replace the Occupant Restraint Controller module.

Engine

2013394 7 Nov 2013

Certain vehicles equipped with a 2.4L gasoline engine may experience a loss of engine oil pressure and subsequent engine failure, causing a loss of motive power. A loss of motive power, in conjunction with driving conditions and driver reactions, could increase the risk of a crash. Correction: Dealers will replace the balance shaft module.

Lights and instruments

2013233 4 Jul 2013

Certain vehicles equipped with bi-function halogen projector headlamps fail to comply with the requirements of Canada Motor Vehicle Safety Standard 108 – Lighting System and Retroreflective Devices. The Daytime Running Lamp (DRL) function may have been incorrectly configured during the vehicle assembly process. A lack of DRL illumination could render the vehicle less visible to other motorists and to pedestrians during daylight hours, possibly resulting in a crash causing property damage and/or personal injury. Correction: Dealers will modify the Totally Integrated Power Module (TIPM) configuration settings.

> Listed for the model year, not checked against your VIN. Jeep confirms which apply.

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] NHTSA recall records (United States), listed for the model year

[4] Cardog market quote, same model year, 11 live listings, as of 23 Nov 2026

[5] Live public dealer listings on Cardog, as of 24 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
