Body	Sport Utility Vehicle	Plant	Detroit, Michigan, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/dodge/durango/2020

4 recalls listed by Transport Canada for this model year

Label

2024548 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Lights and instruments

2021372 11 Jun 2021

Issue: On certain vehicles, the daytime running lamps (DRLs) will remain on when the driver switches the front fog lamps on. A recent change to Canadian regulations requires the DRLs to turn off when the fog lights are switched on. Safety Risk: Daytime running lamps that stay on in foggy conditions could cause glare and reduced visibility. This could increase the risk of a crash. Corrective Action: FCA Canada will notify owners by mail and instruct you to take your vehicle to a dealer to reprogram the body control module.

Seats and restraints

2021239 23 Apr 2021

Issue: On certain vehicles, the side airbag curtains may have a loose or missing mounting fastener. As a result, the side airbag curtains may not inflate properly in a crash. A loose or missing fastener may also cause rattling in the headliner area. Safety Risk: A side airbag curtain that does not inflate properly could create an increased risk of injury in a crash. Corrective Actions: FCA Canada will notify owners by mail and instruct you to take your vehicle to a dealer to inspect for a loose or missing C-pillar fastener for the side airbag curtains.

Visual system

2020145 6 Apr 2020

Issue: On certain vehicles, the rearview camera image may be displayed even after the transmission is shifted out of reverse. This could cause a possible distraction for the driver. Canadian regulations require the rearview image to turn off within 10 seconds after shifting from reverse gear. Safety Risk: A driver that is distracted could have an increased risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and instruct you to take your vehicle to a dealer to update the radio software.

> Listed for the model year, not checked against your VIN. Dodge confirms which apply.
> Check your VIN with Mopar Canada or call a Dodge dealer with your VIN.

[6] Window sticker, issued by STELLANTIS, collected 14 Sep 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote, live public dealer listings and the window sticker. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
