Body	Pickup	Plant	Warren, Michigan, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/ram/1500/2019

21 recalls listed by Transport Canada for this model year

Seats and restraints

2026371 30 Jul 2026

Issue: On certain trucks, the second-row seat belt anchors may not be properly attached. As a result, the seat belt(s) could detach in a crash. Safety Risk: A seat belt that detaches could increase the risk of injury in a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your truck to a dealership to inspect and, if necessary, secure the second-row seat belt buckle(s) to the body.

Airbag

2025658 1 Dec 2025

Issue: On certain trucks, the side curtain airbag inflators may be defective. As a result, the driver and/or passenger side curtain airbag inflator(s) could rupture unexpectedly and metal fragments could be propelled toward vehicle occupants. Note: This is an expansion of Transport Canada recall 2025-013. Safety Risk: An airbag inflator that ruptures can create a risk of injury. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your truck to a dealership to replace the affected side curtain airbag(s).

Airbag

2025013 16 Jan 2025

Issue: On certain trucks, the side curtain airbag inflators may be defective. As a result, the driver and/or passenger side curtain airbag inflator(s) could rupture unexpectedly and metal fragments could be propelled toward vehicle occupants. Note: This recall also affects certain 2016 model year RAM 3500 chassis cab incomplete vehicles. Safety Risk: An airbag inflator that ruptures can create a risk of injury. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your truck to a dealership to replace the affected side curtain airbag(s).

Brakes

2024503 5 Sep 2024

Issue: On certain trucks, a software problem could cause the electronic stability control (ESC) system not to work. As a result, the vehicles may not meet certain requirements of Canadian regulations. Note: This problem would cause warning lights for the antilock braking system (ABS), ESC, adaptive cruise control (ACC), and forward collision warning (FCW) to appear on the instrument panel. Safety Risk: An electronic stability control system that doesn't work could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to take your truck to a dealership to update the antilock braking system (ABS) control module software.

Engine

2023338 8 Jun 2023

Issue: On certain vehicles equipped with a 3.0 L diesel engine, a problem with the engine tone wheel could cause a loss of signal to crankshaft position sensor. If this happens, the engine could stall and you may not be able to restart it. Note: Vehicles included in FCA recall W58 (Transport Canada recall 2020-371) are not part of this recall. Safety Risk: A sudden loss of engine power could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and advise you to take your vehicle to a dealership to update the powertrain control module. This update will help maintain engine power if the crankshaft position signal is lost.

Structure

2022699 8 Dec 2022

Issue: On certain trucks, the tailgate could unlatch and open while driving. If this happens, cargo that is not secured could fall out of the truck bed and onto the road. Safety Risk: Cargo that falls from the truck bed could create a road hazard for others. Corrective Actions: FCA Canada will notify owners by mail and instruct you to take your truck to a dealership to inspect the alignment of the tailgate strikers, and adjust them if necessary.

15 more on the model-year record, cardog.app/tools/recalls/ram/1500/2019

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] NHTSA recall records (United States), listed for the model year

[4] Cardog market quote, same configuration, 22 live listings, as of 28 Oct 2026

[5] Live public dealer listings on Cardog, as of 28 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
