## 2 recalls listed by Transport Canada for this model year

**Airbag** 2019323 28 Jun 2019

Issue: On certain vehicles, long-term exposure to high absolute humidity and temperature, combined with high temperature cycling, may eventually degrade the propellant contained in the airbag. This could cause the airbag to deploy with more force than normal. If the airbag inflator ruptures, fragments could be propelled toward vehicle occupants or cause damage to the airbag assembly, preventing its proper function. Note: This is a new recall campaign that includes vehicles that had an airbag inflator replaced under a previous recall or had a replacement airbag installed. The previous recall provided an interim (short-term) repair. Interim repair parts must be replaced with the final repair parts provided in this recall. Safety Risk: If the vehicle is involved in a crash requiring an airbag deployment, the airbag inflator could rupture and create a risk of injury. Corrective Action: Owners will be notified by mail and instructed to take their vehicle to a dealer to replace the driver and/or passenger-front airbag inflator. Note: The Canadian climate results in the propellant degrading slowly. This recall is being conducted as a precaution to address future risk. It is expected that all airbag inflators will be replaced before their function would be affected.

**Airbag** 2016046 1 Feb 2016

On certain vehicles, the driver frontal airbag inflator could produce excessive internal pressure during airbag deployment. Increased pressure may cause the inflator to rupture, which could allow fragments to be propelled toward vehicle occupants, increasing the risk of injury. This could also damage the airbag module, which could prevent proper deployment. Failure of the airbag to fully deploy during a crash (where deployment is warranted) could increase the risk of personal injury to the seat occupant. Correction: Dealers will inspect/replace the driver's frontal airbag inflator. Note: Honda Canada has created a special Airbag Inflator Hotline for immediate assistance. For more information, please contact: For Honda Owners: 1-877-445-7754 For Acura Owners: 1-877-445-9844

Listed for the model year, not checked against your VIN. Acura confirms which apply.

**STATEMENT OF SCOPE**

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
