1 recall listed by Transport Canada for this model year

Visual system 2024693 14 Nov 2024

Issue: On certain vehicles, the wrong interior rearview mirror may have been installed during production. As a result, the display for the rearview camera image is missing. Canadian regulations require the rearview image to display when the vehicle is reversing. Note: This recall only affects certain cutaway chassis vehicles. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: General Motors will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the interior rearview mirror.

Listed for the model year, not checked against your VIN. GMC confirms which apply.
