2 recalls listed by Transport Canada for this model year

Lights and instruments

2025407 7 Aug 2025

Issue: Under certain conditions, a software problem could cause the daytime running lamps (DRLs) to briefly dim during idle stop-start. As a result, the lamps may not meet the requirements of Canadian regulations. Safety Risk: Daytime running lamps that dim could create a distraction and cause confusion for others. This could increase the risk of a crash. Corrective Actions: Nissan will notify owners by mail and advise you to take your vehicle to a dealership to update the engine control module software.

Visual system

2025264 15 May 2025

Issue: On certain vehicles, a software problem could cause the rearview camera image not to display when the transmission is shifted into reverse. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Nissan will notify owners by mail and advise you to take your vehicle to a dealership to update the centre information display software.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
