cardog.app/tools/recalls/dodge/charger/2025

3 recalls listed by Transport Canada for this model year

Visual system

2026205 23 Apr 2026

Issue: On certain vehicles, a software problem could cause the instrument panel cluster screen not to display. If this happens, you may not be able to see certain information about the vehicle, including the gear selection, warnings, and tell-tales. Note: For the Charger model, this recall only affects the Charger Daytona model. Safety Risk: Warnings, tell-tales and gauges that don't display could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to update the instrument panel cluster software.

Powertrain

2025450 4 Sep 2025

Issue: On a small number of vehicles, the parking pawl return spring in the electric drive module may not have been installed correctly. As a result, when the transmission is shifted to Park, the vehicle could move if the parking brake isn't applied. Safety Risk: A parked vehicle that rolls away could create the risk of an injury or a crash. Corrective Actions: To reduce the safety risk, FCA Canada recommends that you should always use the parking brake when you park. FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to replace the electric drive module.

Other

2025316 12 Jun 2025

Issue: On certain electric vehicles, a software problem could cause the pedestrian warning system not to work. Canadian regulations require electric vehicles to make a minimum exterior sound. Safety Risk: A pedestrian warning system that doesn't work could create an increased risk of injury for other road users. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to update the amplifier software.

> Listed for the model year, not checked against your VIN. Dodge confirms which apply.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same model year, 3 live listings, as of 28 Oct 2026
[5] Live public dealer listings on Cardog, as of 28 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
