2 recalls listed by Transport Canada for this model year

Airbag 2016448 14 Sep 2016

On certain vehicles in certain types of crashes, airbag and seatbelt pretensioner deployment capability may be lost due to a short in the front impact sensor wiring affecting Occupant Restraint Controller function. Failure of airbags and seatbelt pretensioners to deploy in a crash (when warranted) could increase the risk of injury. Correction: Dealers will replace the Occupant Restraint Controller module.

Steering 2011224 10 Jun 2011

Certain vehicles may have been built with a missing or incorrectly installed steering column pivot rivet. A steering column with a miss-installed rivet may not perform as intended in the event of a crash, which may increase the risk of personal injury. Correction: Dealers will inspect for steering column rivet presence and alignment, and repair as required.
