## §2 OBLIGATIONS [2]

cardog.app/tools/recalls/dodge/caliber/2007

## 4 recalls listed by Transport Canada for this model year

## Accessories

2017663 22 Dec 2017

On certain vehicles equipped with the Roadside Emergency Kit containing a Kidde fire extinguishers with black plastic handles and valves, the fire extinguishers may become clogged or require excessive force to activate. Also, the nozzle may detach from the valve assembly with enough force that it could cause injury, and fail to discharge. In case of fire, failure of the extinguisher to function could result in injury and/or property damage. Correction: Dealers will replace the suspect Kidde fire extinguisher with a new Kidde fire extinguisher with a steel nozzle. For more information about recalled fire extinguishers, please visit <https://inmarmarketaction.com/kidde/Kidde284CA/> or [www.kidde.com](http://www.kidde.com).

## Other

2010184 4 Jun 2010

On certain vehicles, the accelerator pedal pivot bearing bushings may dislodge from the pedal bushing bearing pockets and cause the accelerator pedal to bind or stick. Even though these vehicles are equipped with "Smart Brake technology", where the engine controller is designed to reduce engine power when a disagreement between the throttle and the brake exists, the risk of a crash causing property damage, personal injury or death still exist. Correction: Dealers will inspect and, if necessary, replace the accelerator pedal assembly.

## Brakes

2007139 2 May 2007

On certain vehicles, the length of the rear wheel hub mounting bolts may prevent proper actuation of the park brake. This could allow unintended movement of the vehicle under certain conditions and cause a crash without warning. Correction: Dealers will replace the rear wheel hub mounting bolts and brake cable equalizer, and adjust the park brake system.

**Brakes**

2006373 27 Dec 2006

On certain vehicles, the Anti-lock Brake System (ABS) control module software may cause the rear brakes to lock-up during certain braking conditions. This could result in a loss of vehicle control and cause a crash without warning. Correction: Dealers will reprogram the ABS electronic control unit.

### STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
