4 recalls listed by Transport Canada for this model year

Airbag 2017494 12 Oct 2017

On certain vehicles, there could be an electrical condition within the Occupant Restraint Control ("ORC") module. This may result in the airbag warning lamp illuminating, and the active head restraints not to deploy during certain rear impact collisions, which could increase the risk of injury to front seat occupants. Correction: Dealers will inspect the ORC part number and replace the ORC if necessary. Note: Vehicles that have been previously repaired with the updated ORC under recall 2016-448 will not require repairing under this recall campaign.

Airbag 2016448 14 Sep 2016

On certain vehicles in certain types of crashes, airbag and seatbelt pretensioner deployment capability may be lost due to a short in the front impact sensor wiring affecting Occupant Restraint Controller function. Failure of airbags and seatbelt pretensioners to deploy in a crash (when warranted) could increase the risk of injury. Correction: Dealers will replace the Occupant Restraint Controller module.

Airbag 2013231 4 Jul 2013

On certain vehicles, the airbag warning lamp may illuminate due to an electrical fault within the Occupant Restraint Control (ORC) module. As a result, the Active Head Restraints (AHR) may not deploy during a rear impact collision (where deployment is warranted), which could increase the risk of personal injury to the front seat occupants. Correction: Dealers will reprogram the Totally Integrated Power Module (TIPM) or replace the ORC module, as required.

Engine

2011351 27 Sep 2011

On certain vehicles equipped with a 3.6L engine, debris in the cylinder block (from the manufacturing process) could cause connecting rod bearing and crankshaft bearing damage. As a result, abnormal engine performance may be noticed, and in some cases the engine could fail. Engine failure would result in lost vehicle propulsion which, in conjunction with traffic and road conditions, and driver reactions, could increase the risk of a crash causing property damage and/or personal injury. Correction: Dealers will replace the engine assembly.

Listed for the model year, not checked against your VIN. Chrysler confirms which apply.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
