| Body | Sedan | Plant | Lordstown, Ohio, United States |

## §2 OBLIGATIONS [2]

cardog.app/tools/recalls/chevrolet/cruze/2018

**3** recalls listed by Transport Canada for this model year

### Powertrain

2020520 29 Oct 2020

Issue: On certain vehicles, the start-stop accumulator in the transmission may be missing bolts. As a result, transmission fluid could leak and eventually cause the transmission to stop working. If this happens, there could be a loss of power to the wheels. Safety Risk: A transmission fluid leak onto a hot surface can create the risk of a fire. Additionally, a loss of power to the wheels could increase the risk of a crash. Corrective Actions: General Motors will notify owners by mail and instruct you to take your vehicle to a dealer to inspect the transmission start-stop accumulator. It will be replaced if any bolts are found missing.

### Brakes

2018461 30 Aug 2018

On certain vehicles, a problem with the rear brake system may cause gas bubbles to form in the brake fluid. This could cause a soft brake pedal feel and a reduction in brake performance, increasing the risk of a crash causing injury and/or damage to property. Correction: Dealers will bleed the rear brakes.

### Fuel system

2018251 11 May 2018

Certain models equipped with a tire inflator kit may fail to comply with the requirements of Canada Motor Vehicle Safety Standard (CMVSS) 301 – Fuel System Integrity. The company's internal testing indicates that, under certain conditions in a rollover following a severe rear-impact crash, a sensor attached to the fuel tank may contact the rear floor panel, and possibly cause a fuel leak. Fuel leakage, in the presence of an ignition source, could result in a fire causing injury and/or property damage. Correction: Dealers will install a lock-ring on the fuel tank that shields the vapour pressure sensor.

> Listed for the model year, not checked against your VIN. Chevrolet confirms which apply.

| Window sticker | This VIN reads as model year 1988 or 2018, before our coverage for this manufacturer. |

## SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 45 live listings, as of 29 Oct 2026
[5] Live public dealer listings on Cardog, as of 29 Oct 2026

### STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
