1 recall listed by Transport Canada for this model year

Electrical 2023486 31 Aug 2023

Issue: The portable charging cord included with certain vehicles could have incorrect software. As a result, if the ground connection is lost during charging, the portable charging cord may not stop charging the vehicle. Safety Risk: A charging cord that isn't grounded could create a risk of injury from an electric shock. Corrective Actions: General Motors will notify owners by mail and advise you to take your vehicle to a dealership to inspect the portable charging cord, and replace it if necessary. General Motors recommends not to use the portable charging cord until it has been inspected.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
