Body	Hatchback	Plant	Toluca, State Of Mexico, Mexico

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/fiat/500/2012

6 recalls listed by Transport Canada for this model year

Label — 2024548 — 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Powertrain — 2019577 — 15 Nov 2019

Issue: On certain vehicles equipped with a 6-speed automatic transmission, the shifter cable may detach. This could cause the transmission not to shift gears when the shifter is moved. If a driver attempts to exit the car while it is not in the Park position, and the parking brake is not applied, the car could move suddenly. Safety Risk: Sudden and unexpected movement of the car could increase the risk of a crash. Corrective Actions: The company will notify owners by mail and instruct them to take their vehicle to a dealer to install a new transmission shift cable adjuster.

Powertrain — 2016217 — 12 May 2016

On certain vehicles equipped with a manual transmission, clutch diaphragm springs may crack or become damaged, which could result in the driver being unable to shift gears, or potentially result in a loss of motive power. Depending on traffic conditions and the driver's reactions, these issues could increase the risk of a crash. Correction: Dealers will install a pedal travel limiter and pedal switch.

Lights and instruments

2015578 4 Dec 2015

Fiat Chrysler Automobiles (FCA) Canada is conducting a voluntary Customer Satisfaction Notification Program involving certain vehicles equipped with automatic transmissions. Fiat Chrysler Automobiles (FCA) will update the Powertrain Control Module software to improve activation timing of the backup lamps. This updated software will turn the backup lamps on earlier, indicating to other road users that the driver has selected reverse gear. This action is not being conducted under the requirements of the Motor Vehicle Safety Act.

Brakes

2011400 14 Nov 2011

Certain vehicles may have had their brake system inadvertently filled with contaminated brake fluid during vehicle assembly. This could damage certain brake components, which could increase stopping distance, and result in a crash causing property damage and/or personal injury. Correction: Dealers will replace all brake components that come in contact with hydraulic brake fluid.

Label

2011315 23 Aug 2011

On certain vehicles, the compliance label indicates the vehicle type in the unilingual text "PASSENGER CAR" instead of using text in both official languages, or using the bilingual abbreviation "PC/VT". Correction: No corrective recall action is required as the technical non-compliance is deemed to be non-safety related.

> Listed for the model year, not checked against your VIN. Fiat confirms which apply.

§5 DOCUMENTS

Window sticker — This VIN reads as model year 1982 or 2012, before our coverage for this manufacturer.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 9 live listings, as of 29 Oct 2026
[5] Live public dealer listings on Cardog, as of 29 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
