## §2 OBLIGATIONS [2]

cardog.app/tools/recalls/chevrolet/bolt-euv/2022

**2** recalls listed by Transport Canada for this model year

### Electrical

2023486 31 Aug 2023

Issue: The portable charging cord included with certain vehicles could have incorrect software. As a result, if the ground connection is lost during charging, the portable charging cord may not stop charging the vehicle. Safety Risk: A charging cord that isn't grounded could create a risk of injury from an electric shock. Corrective Actions: General Motors will notify owners by mail and advise you to take your vehicle to a dealership to inspect the portable charging cord, and replace it if necessary. General Motors recommends not to use the portable charging cord until it has been inspected.

### High voltage

2021524 20 Aug 2021

Issue: On certain vehicles, the high-voltage battery could overheat when it is charged to over 90% of its capacity. As a result, the battery could create smoke or heat, which can melt or damage the battery and nearby parts. Safety Risk: A battery that overheats can create a fire risk. Corrective Actions: General Motors will notify owners by mail and advise you to take your vehicle to a dealership to install an advanced diagnostic software that will monitor the high-voltage battery and warn you if it detects a problem. If you see this warning, you should contact a dealership to arrange replacement of the affected high-voltage battery module. Please click here for additional information, including precautions to take until the recall repairs are completed, or call 1-800-263-3777 : <a href= https://my.gm.ca/chevrolet/en/how-to-support/safety/boltevrecall> https://my.gm.ca/chevrolet/en/how-to-support/safety/boltevrecall</a>

Listed for the model year, not checked against your VIN. Chevrolet confirms which apply.
Check your VIN with Chevrolet Canada or call a Chevrolet dealer with your VIN.

### SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 14 live listings, as of 28 Oct 2026
[5] Live public dealer listings on Cardog, as of 28 Oct 2026

## STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
