2 recalls listed by Transport Canada for this model year

Label

2024548 15 Aug 2024

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Lights and instruments

2021372 11 Jun 2021

Issue: On certain vehicles, the daytime running lamps (DRLs) will remain on when the driver switches the front fog lamps on. A recent change to Canadian regulations requires the DRLs to turn off when the fog lights are switched on. Safety Risk: Daytime running lamps that stay on in foggy conditions could cause glare and reduced visibility. This could increase the risk of a crash. Corrective Action: FCA Canada will notify owners by mail and instruct you to take your vehicle to a dealer to reprogram the body control module.
