Make	Chevrolet	Fuel	Gasoline
Model	Cruze	Drive	Not in the decode
Trim	2LT	Maker	GENERAL MOTORS LLC
Body	Sedan	Plant	Lordstown, Ohio, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/chevrolet/cruze/2012

7 recalls listed by Transport Canada for this model year

Airbag
2014306 22 Jul 2014

On certain vehicles, the primary stage of the driver's airbag may not deploy during a crash (where deployment is warranted). Failure of an airbag to deploy correctly could increase the risk of personal injury to the seat occupant. Correction: Dealers will replace the steering wheel airbag coil. Note: This is an expansion of recall 2012368.

Accessories
2014274 3 Jul 2014

On certain vehicles, insulation on the engine block heater power cord may become damaged if the cord is handled during very cold days (temperatures below -25C). This could create an electrical shock hazard, which could result in personal injury. Correction: Dealers will replace the block heater cord.

Airbag
2014213 6 Jun 2014

On certain vehicles, the primary or secondary stage of the driver's airbag may not deploy during a crash (where deployment is warranted). Failure of an airbag to deploy correctly could increase the risk of personal injury to the seat occupant. Correction: Dealers will replace the steering wheel airbag coil. Note: This recall is superseded by recall 2014306.

Brakes
2013282 15 Aug 2013

On certain vehicles equipped with a 1.4L DOHC gasoline turbo engine and a 6T40 automatic transmission, the electric vacuum pump (which provides supplemental vacuum under certain operating conditions) may not function as designed. This could result in an intermittent reduction or loss of brake power assist, requiring greater brake pedal effort to slow or stop the vehicle. This could increase stopping distances, which may result in a crash causing property damage and/or personal injury. Correction: Dealers will replace a microswitch in the power brake vacuum pipe assembly.

Airbag

2012368 30 Oct 2012

On certain vehicles, the primary stage of the driver's airbag may not deploy during a crash (where deployment is warranted). Failure of an airbag to deploy correctly could increase the risk of personal injury to the seat occupant. Correction: Dealers will replace the steering wheel airbag coil.

Structure

2012188 22 Jun 2012

On certain vehicles, welds may have been omitted from the fuel tank mounting brackets during the vehicle manufacturing process. This could allow fuel leakage to occur as a result of a severe side impact crash. Fuel leakage, in the presence of an ignition source, could result in a fire causing property damage and/or personal injury. Correction: Dealers will inspect and, if necessary, secure the fuel tank brackets using fasteners.

§5 DOCUMENTS

Window sticker — This VIN reads as model year 1982 or 2012, before our coverage for this manufacturer.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same model year, 26 live listings, as of 28 Oct 2026
[5] Live public dealer listings on Cardog, as of 28 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
