cardog.app/tools/recalls/honda/hr-v/2022

2 recalls listed by Transport Canada for this model year

Visual system

2024305 30 May 2024

Issue: Under certain conditions, the battery voltage could drop when starting the engine. If this happens, the display audio system may not start. As a result, the rearview image will not appear on the display screen when reversing. Canadian regulations require the rearview image to display when the vehicle is reversing. Note: This recall replaces Transport Canada recall no. 2023-041. The software update completed by a Honda dealer during recalls HP35 and HP36 (Transport Canada recall no. 2023-041) may not have been effective. As a result, a second repair is required. Safety Risk: A rearview camera image that does not display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Honda will notify owners by mail and advise you to take your vehicle to a dealership to update the display audio software.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 12 live listings, as of 23 Nov 2026
[5] Live public dealer listings on Cardog, as of 24 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
