§2 OBLIGATIONS [2]

cardog.app/tools/recalls/jeep/compass/2015

2 recalls listed by Transport Canada for this model year

Label

2017585 28 Nov 2017

Certain vehicles fail to comply with the requirements of Canada Motor Vehicle Safety Standard (CMVSS) 205 - Glazing Materials. The rear lift gate glass panel is labeled with the luminous transmittance number “AS2” instead of the correct number “AS3”. Correction:. No corrective recall action is required as the technical non-compliance condition is deemed to be non-safety related.

Steering

2015614 22 Dec 2015

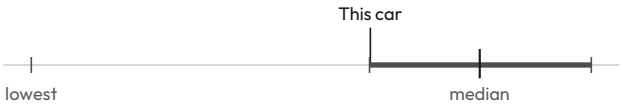

On certain vehicles, the power steering hose retention clamp may have been incorrectly positioned during assembly. This could result in a detachment of the low pressure return hose, resulting in a large volume leak of power steering fluid, which would require greater driver effort to steer the vehicle. In some circumstances, the leaking fluid in the presence of an ignition source, could result in a fire causing injury and/or damage to property. Correction: Dealers will inspect the return power steering hose for proper placement of the hose clamp, and reposition the hose clamp as needed.

> Listed for the model year, not checked against your VIN. Jeep confirms which apply.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same model year, 8 live listings, as of 5 Nov 2026
[5] Live public dealer listings on Cardog, as of 5 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
