**3** recalls listed by Transport Canada for this model year

### Visual system

2026242 20 May 2026

Issue: On a small number of vehicles, a problem with the camera control unit could cause the rearview camera image not to display after shifting into reverse or after activating the parking assistance function. Canadian regulations require the rearview image to display when the transmission is shifted into reverse. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Volkswagen will notify owners by mail and advise you to take your vehicle to a dealership to update the camera control unit software.

### Visual system

2025066 12 Feb 2025

Issue: On certain vehicles, a problem with the camera control unit could cause the rearview camera image not to display after shifting into reverse or after activating the parking assistance function. Canadian regulations require the rearview image to display when the transmission is shifted into reverse. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: The company will notify owners by mail and advise you to take your vehicle to a dealership to update the camera control unit software.

### Label

2024274 15 May 2024

Issue: On certain vehicles, the year of manufacture listed on the compliance label is incorrect. Canadian regulations require the month and year of the vehicle's date of manufacture to be listed on the compliance label. Safety Risk: This error could cause confusion when trying to identify the model year of the vehicle using the compliance label. Corrective Actions: Volkswagen will notify owners by mail and advise you to take your vehicle to a dealership to install an overlay (label) on the compliance label.
