2 recalls listed by Transport Canada for this model year

Airbag

2024190 22 Mar 2024

Issue: On certain vehicles, an electrical component in the sensors for the occupant detection system (ODS) may not have been manufactured properly and could crack. Over time, moisture could enter the crack and cause a short circuit. If this happens, the passenger-front airbag may not deploy in a crash, even when a passenger is seated. Note: This problem would cause the SRS warning light to turn on in the instrument panel and the passenger airbag indicator light would display "OFF". Safety Risk: An airbag that does not work properly could increase the risk of injury to a passenger in a crash. Corrective Actions: Subaru will notify owners by mail and advise you to take your vehicle to a dealership to replace the ODS sensors in the front passenger seat. To reduce the safety risk, Subaru advises that you shouldn't use the front passenger seat if the SRS (airbag) warning light is on and the passenger airbag indicator light displays "OFF".

Electrical

2023607 9 Nov 2023

Issue: On certain vehicles, water could enter the inhibitor switch and cause it to fail. If this happens, the backup lamps may not turn on and the rearview camera image may not display when backing up. This could also cause the gear selection indicator in the instrument panel not to be displayed. Safety Risk: Backup lamps that don't work could cause others not to recognize when a vehicle is backing up. A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. These issues could increase the risk of a crash. Corrective Actions: Subaru will notify owners by mail and advise you to take your vehicle to a dealership to replace the inhibitor switch.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
