Trim	Jeep/Unlimited Jeep	Maker	FCA US LLC
Body	Sport Utility Vehicle	Plant	United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/jeep/wrangler/2011

4 recalls listed by Transport Canada for this model year

Airbag

2016265 27 May 2016

On certain vehicles, long-term exposure to high absolute humidity and temperature, combined with high temperature cycling, could eventually degrade the propellant contained in the passenger frontal airbag. This could cause the airbag to deploy with more force than normal. As a result, if the vehicle were involved in a collision that warrants airbag deployment, fragments could be propelled toward vehicle occupants, and the airbag assembly could be damaged, preventing proper function. These issues could increase the risk of injury. Correction: Dealers will replace the airbag inflator. Note: Canadian climate results in the propellant degrading slowly. The recall is being conducted as a precaution to address future risk, and is expected to replace airbag inflators before their function would be affected.

Electrical

2014447 9 Oct 2014

On certain vehicles equipped with power heated mirrors, an electrical connector within the door may corrode, potentially resulting in an electrical short. This could result in a burning odour, smoke, or fire, increasing the risk of injury and/or damage to property. Correction: Dealers will modify electrical wiring and install a water shield.

Steering

2011224 10 Jun 2011

Certain vehicles may have been built with a missing or incorrectly installed steering column pivot rivet. A steering column with a miss-installed rivet may not perform as intended in the event of a crash, which may increase the risk of personal injury. Correction: Dealers will inspect for steering column rivet presence and alignment, and repair as required.

Suspension

2011101 3 Mar 2011

On certain vehicles, fastener torque for various front and rear axle attachments may degrade over time, due to variability in the axle painting process. This could result in noise or cause a degradation in steering and handling characteristics. A loss of vehicle control could result in a crash causing property damage and/or personal injury. Correction: Dealers will re-torque nineteen fasteners to specifications.

§5 DOCUMENTS

Window sticker This VIN reads as model year 1981 or 2011, before our coverage for this manufacturer.

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] NHTSA recall records (United States), listed for the model year

[4] Cardog market quote, same model year, 20 live listings, as of 27 Nov 2026

[5] Live public dealer listings on Cardog, as of 27 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
