1 recall listed by Transport Canada for this model year

Issue: Under certain conditions, a software problem could cause the rearview camera image not to display when the transmission is shifted into reverse. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Volkswagen will notify owners by mail and advise you to take your vehicle to a dealership to update the rearview camera software.

Listed for the model year, not checked against your VIN. Volkswagen confirms which apply.
