Issue: On certain vehicles, the optional off-road light bar installed during service may not have been attached properly. As a result, the light bar could loosen and detach from the vehicle. Corrective Actions: Tesla will notify owners by email and advise you to contact Tesla Service to arrange for an inspection of the off-road light bar. Tesla has released an over-the-air software update to fix this issue. There is no further action required if your vehicle has software release 2025.38.3 or a later release.
