cardog.app/tools/recalls/gmc/terrain/2012

3 recalls listed by Transport Canada for this model year

Visual system

2018137 16 Mar 2018

In certain vehicles, water may drain from the windshield cowl area onto the windshield wiper transmission link joints. Over time, this could result in corrosion and/or wear to the joint, which could result in the separation of the wiper link ball from its corresponding socket. If separation were to occur, the windshield wipers could become inoperative, which could limit the driver's visibility under certain operating conditions and increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will relocate drain holes in the windshield cowl and install a wiper module with revised joints. Note: This is an expansion of recall 2016-318 to include vehicles originally sold or registered in the province of British Columbia.

Visual system

2016318 22 Jun 2016

In certain vehicles registered and operated in areas where road salt is used on the roadways during winter months for extended time periods (Ontario, Quebec, New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland-Labrador), water may drain from the windshield cowl area onto one of the windshield wiper transmission link joints. Over time, this could result in corrosion and/or wear to the joint, which could result in the separation of the wiper link ball from its corresponding socket. If separation were to occur, the windshield wipers could become inoperative, which could limit the driver’s visibility under certain operating conditions which may increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will relocate drain holes in the windshield cowl and install a wiper module with revised joints.

Seats and restraints

2014311 23 Jul 2014

On certain vehicles equipped with power height adjustable front seats, a bolt securing the adjuster mechanism may loosen and fall out. This would cause the seat to drop to the lowest vertical adjustment position, which could affect the driver's ability to safety operate vehicle controls as well as cause reduced driver visibility. These issues could increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will replace the bolt.

§5 DOCUMENTS

Window sticker	This VIN reads as model year 1982 or 2012, before our coverage for this manufacturer.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same model year, 6 live listings, as of 28 Oct 2026
[5] Live public dealer listings on Cardog, as of 28 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
