| Trim | Touring/GS | Maker | Mazda Motor Corporation |
| Body | Hatchback | Plant | Hofu, Yamaguchi, Japan |

## §2 OBLIGATIONS [2]

cardog.app/tools/recalls/mazda/mazda3/2014

**4** recalls listed by Transport Canada for this model year

### Visual system

2023391 14 Jul 2023

Issue: On certain vehicles, a problem with the rearview camera connector could cause distortion or flickering of the rearview camera image. Note: This recall only affects hatchback (5-door) models. Safety Risk: A rearview camera image that doesn't display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: Mazda will notify owners by mail and advise you to take your vehicle to a dealership to inspect the rearview camera and install a seal for the wiring harness. The dealer will replace the rearview camera, if necessary.

### Brakes

2017312 22 Jun 2017

On certain vehicles equipped with hand-operated parking brakes, the rear brake caliper protective boot on the parking brake system may not perform as intended, causing the parking brake actuator shaft to corrode. Over time, the actuator shaft may become stuck in the brake caliper body which could lead to decreased parking brake holding force or cause the parking brake to drag while driving. Decreased parking brake holding force could cause the vehicle to roll away if parked on a slope which would increase the risk of injury and/or damage to property. Correction: Dealers will inspect and repair or replace the rear caliper assemblies as necessary.

### Fuel system

2016464 22 Sep 2016

On certain vehicles. the fuel tank may contain a defect which could allow a weld to break, potentially resulting in a fuel leak. A fuel leak in the presence of an ignition source could result in a fire causing injury and/or property damage. Correction: Dealers will inspect the fuel tank and replace if necessary.

### Electrical

2014113 7 Apr 2014

On certain vehicles equipped with the regenerative braking system, a fault could cause the charging system to malfunction, which would display the charging system malfunction warning light and error message. Continued vehicle operation in this state could result in an engine stall and a loss of motive power. This could increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will reprogram the powertrain control module.

> Listed for the model year, not checked against your VIN. Mazda confirms which apply.

## §5 DOCUMENTS

Window sticker — We do not collect window stickers for this manufacturer.

### SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] NHTSA recall records (United States), listed for the model year

[4] Cardog market quote, same configuration, 8 live listings, as of 27 Oct 2026

[5] Live public dealer listings on Cardog, as of 27 Oct 2026

### STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
