Visual system

2026402 20 Aug 2026

Issue: On certain vehicles, moisture could enter the rearview camera and could cause the rearview camera image not to display correctly or at all. Note: This recall only affects vehicles equipped with a standard rearview camera. Safety Risk: A rearview camera image that doesn't display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: General Motors will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the rearview camera.

Lights and instruments

2023599 6 Nov 2023

Issue: On certain vehicles, a software problem could cause the instrument panel to display a black screen. If this happens, it could create a distraction for the driver, and warnings, tell-tales and gauges would not display. Safety Risk: A driver that is distracted and/or warnings, tell-tales, and gauges that don't display could increase the risk of a crash. Corrective Actions: General Motors will notify owners by mail and advise you to take your vehicle to a dealership to update the software for the virtual cockpit unit module.
