2 recalls listed by Transport Canada for this model year

Seats and restraints

2026445 18 Sep 2026

Issue: On certain vehicles, the second-row seats may not detect an obstruction when the power folding functions are used. If this happens, the seat(s) may continue moving even if there's an obstruction. Note: This recall only affects certain Ultimate Calligraphy models equipped with second-row captain chairs. Safety Risk: A seat that doesn't stop moving could increase the risk of injury. Corrective actions: To reduce the safety risk, Hyundai advises you to ensure the second-row seats are empty before using the power folding functions. Hyundai will notify owners in writing and send a wireless over-the-air software update to eligible vehicles to update the rear power seat software. Alternatively, you may schedule an appointment to have the update performed at a Hyundai dealership.

Visual system

2026033 27 Jan 2026

Issue: On certain vehicles, a software problem could cause the instrument panel cluster to reboot while driving. As a result, you may not be able to see certain information about the vehicle, including the speedometer, fuel gauge, tire pressure monitoring system (TPMS), warning lights and malfunction tell-tales. Note : For the Santa Fe model, this recall only affects the hybrid model. For the Palisade model, both gas and hybrid models are affected. For the Tucson model, gas, hybrid and plug-in hybrid (PHEV) models are affected. Safety Risk: Warnings, tell-tales and gauges that don't display could increase the risk of a crash. Corrective Actions: Hyundai will notify owners in writing and send a wireless over-the-air software update to eligible vehicles to update the instrument panel cluster software. Alternatively, you may schedule an appointment to have the update performed at a Hyundai dealership.
