Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has corrected the tire and loading information label for all new vehicles.

Issue: On certain vehicles, the nuts that attach the windshield wiper arms may not have been tightened properly. This could cause the wipers to slip and not clear the windshield properly. Safety Risk: Windshield wipers that do not work properly could affect a driver's visibility. This could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners by mail and instruct you to take your vehicle to a dealer to tighten the nuts on the windshield wiper arms.
