## 2 recalls listed by Transport Canada for this model year

### Visual system

2026396 13 Aug 2026

Issue: On certain vehicles, a software problem could cause the rearview camera image not to display when the transmission is shifted into reverse. Canadian regulations require the rearview image to display when the vehicle is reversing. Note: This recall also affects Grand Cherokee L models and Grand Wagoneer L models. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and send a wireless over-the-air software update to eligible vehicles to update the radio software. Alternatively, you may schedule an appointment to have the update performed at an FCA dealership.

### Visual system

2026393 13 Aug 2026

Issue: On one vehicle, a software problem could cause the windshield wipers not to work under certain conditions. Safety Risk: Windshield wipers that don't work could reduce visibility and increase the risk of a crash. Corrective Actions: FCA Canada will notify the owner in writing and advise them to take their vehicle to a dealership to update the body control module software.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote, live public dealer listings and the window sticker. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
