cardog.app/tools/recalls/jeep/cherokee/2026

3 recalls listed by Transport Canada for this model year

Visual system

2026396 13 Aug 2026

Issue: On certain vehicles, a software problem could cause the rearview camera image not to display when the transmission is shifted into reverse. Canadian regulations require the rearview image to display when the vehicle is reversing. Note: This recall also affects Grand Cherokee L models and Grand Wagoneer L models. Safety Risk: A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and send a wireless over-the-air software update to eligible vehicles to update the radio software. Alternatively, you may schedule an appointment to have the update performed at an FCA dealership.

Brakes

2026177 9 Apr 2026

Issue: On certain vehicles, a software problem could cause the antilock braking system (ABS) and electronic stability control (ESC) system not to work correctly. Safety Risk: Antilock braking and electronic stability control systems that don't work correctly could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to update the brake system control module software.

Electrical

2026043 2 Feb 2026

Issue: On certain vehicles, the trailer tow module could fail. As a result, the trailer lights may not work when towing a trailer. This problem could also cause the trailer brakes not to work. Note: This recall also affects certain RAM 3500, 4500 and 5500 chassis cab incomplete vehicles. Safety Risk: Trailer lights that don't work could make the vehicle less visible and cause following drivers not to recognize that the vehicle is braking or intends to turn or change lanes. These issues could increase the risk of a crash. Additionally, a loss of trailer brakes could increase the risk of a crash. Corrective Actions: FCA Canada will notify owners in writing and advise you to take your vehicle to a dealership to replace the trailer tow module.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote, live public dealer listings and the window sticker. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
