Body	Sedan	Plant	Cuautitlan, Mexico

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/ford/fiesta/2011

3 recalls listed by Transport Canada for this model year

Electrical

2017274 23 May 2017

In certain vehicles registered and operated in areas where road salt is used on the roadways during winter months for extended time periods (Ontario, Quebec, New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland-Labrador), moisture containing road salt could enter the battery junction box and cause corrosion of the fuse and wiring terminals. This could result in a loss of electrical connectivity in some circuits related to the powertrain, potentially causing the vehicle to stall without the ability to restart. This could also affect the exterior lighting, which would decrease vehicle conspicuity. These conditions could increase the risk of crash causing injury and/or damage to property. Correction: Dealers will inspect, clean any corrosion off the terminals and replace any defective fuses. Seals will also be installed in the battery junction box to prevent future moisture entry.

Structure

2015175 24 Apr 2015

On certain vehicles, the door latches may have a broken pawl spring tab. This could result in the door not latching correctly. As a result, doors which appear to be latched could unlatch while driving. This could increase the risk of injury to a vehicle occupant seated next to the door, or result in damage to property. Correction: Dealers will replace all four door latches with a more robust part.

Airbag

2012332 1 Oct 2012

On certain vehicles, the Restraint Control Module will turn OFF the right side air curtain, as well as the front passenger seat-mounted side airbag, when the Occupant Classification System (OCS) senses the right front seat is not occupied. Although the vehicle meets prescribed Standards for side impact protection, failure of the right side air curtain to deploy during a crash (where deployment is warranted) could increase the risk of personal injury to the right rear seat occupant. Correction: Dealers will reprogram the Restraint Control Module.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same model year, 8 live listings, as of 29 Oct 2026
[5] Live public dealer listings on Cardog, as of 29 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
