Body	Hatchback	Plant	Cuautitlan, Mexico

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/ford/fiesta/2012

3 recalls listed by Transport Canada for this model year

Electrical — 2019432 27 Aug 2019

Issue: On certain cars, water and road debris can enter the battery junction box. This could result in corrosion of some electrical components. If this happens, the low beam headlights and daytime running lights could turn off while driving. This recall applies to cars originally sold or currently registered in areas of heavy road salt usage (Ontario, Quebec, New Brunswick, Nova Scotia, Prince Edward Island, and Newfoundland & Labrador). Safety Risk: A loss of low beam headlights and/or daytime running lights would reduce visibility. This could increase the risk of a crash. Corrective Actions: Ford will notify owners by mail and instruct them to take their car to a Ford or Lincoln dealer to service the battery junction box. The dealer will clean the battery junction box, install foam sealing to the cover, and replace any corroded fuses, terminals or relays.

Structure — 2015175 24 Apr 2015

On certain vehicles, the door latches may have a broken pawl spring tab. This could result in the door not latching correctly. As a result, doors which appear to be latched could unlatch while driving. This could increase the risk of injury to a vehicle occupant seated next to the door, or result in damage to property. Correction: Dealers will replace all four door latches with a more robust part.

Airbag — 2012332 1 Oct 2012

On certain vehicles, the Restraint Control Module will turn OFF the right side air curtain, as well as the front passenger seat-mounted side airbag, when the Occupant Classification System (OCS) senses the right front seat is not occupied. Although the vehicle meets prescribed Standards for side impact protection, failure of the right side air curtain to deploy during a crash (where deployment is warranted) could increase the risk of personal injury to the right rear seat occupant. Correction: Dealers will reprogram the Restraint Control Module.

> Listed for the model year, not checked against your VIN. Ford confirms which apply.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same model year, 4 live listings, as of 29 Oct 2026
[5] Live public dealer listings on Cardog, as of 29 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
