2 recalls listed by Transport Canada for this model year

Brakes

2026233 14 May 2026

Issue: On certain vehicles, water could leak into the rearview camera and cause the rearview camera image not to display correctly or at all. Safety Risk: A rearview camera image that doesn't display correctly could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: The company will notify owners by mail and advise you to take your vehicle to a dealership to replace the rearview camera.

Lights and instruments

2026090 26 Feb 2026

Issue: On certain vehicles, a software problem could cause the instrument cluster and infotainment system display to go blank while driving. As a result, you may not be able to see certain information about the vehicle, including the speedometer, warnings, and tell-tales. Additionally, when the transmission is shifted into reverse gear, the rearview camera image may not appear on the display. Safety Risk: Warnings, tell-tales and gauges that don't display could increase the risk of a crash. A rearview camera image that doesn't display could reduce a driver's ability to see behind the vehicle while backing up. This could increase the risk of a crash. Corrective Actions: The company will notify owners by mail and advise you to take your vehicle to a dealership to update the radio control module software.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
