2 recalls listed by Transport Canada for this model year

Structure

2021495 6 Aug 2021

Issue: On certain vehicles, a part in the trunk release latch could fail. If this happens, the emergency trunk release located inside the trunk compartment may not work properly. This could prevent a person that is trapped inside the trunk from opening it. Note: For the 2016 model year Sonata, only the Sonata Hybrid is affected by this recall. Safety Risk: If a person is closed inside the trunk compartment, they may not be able to get out. This could create a risk of injury. Corrective Actions: Hyundai will notify owners by mail and instruct you to take your vehicle to a dealer to replace the trunk latch assembly.

Heater and defroster

2019142 18 Mar 2019

Issue: On certain 5-door cars, when the rear defroster is switched on, the rear glass may develop hot spots. Safety Risk: A person that comes in contact with hot spots on the rear glass could have an increased risk of a burn injury. Corrective Actions: The company will notify owners by mail. Owners will be instructed to take their car to a dealer to have the rear glass replaced.
