Fuel system

2023470 23 Aug 2023

Issue: Under certain conditions, the fuel supply module connectors and wiring could overheat. If this happens, the fuel supply module could melt and create a fuel leak. Safety Risk: A fuel leak can create the risk of a fire. Corrective Actions: Bentley will notify owners by mail and advise you to take your vehicle to a dealership to replace the fuel supply module flange and wiring.

Seats and restraints

2016583 18 Nov 2016

On certain vehicles, the seat mechanism and instrument panel joint fasteners may not have been tightened properly during the manufacturing process. This could result in reduced occupant protection in an event of a crash, which could increase the risk of injury. Correction: Dealers will inspect and tighten the potentially loose fasteners.
