2 recalls listed by Transport Canada for this model year

Label — 2026278 — 9 Jun 2026

Issue: On certain vehicles, the tire and loading information label does not list that there is no spare tire in both official languages. The label reads as "NONE / NON-APPLICABLE" when it should read as "NONE / AUCUN". Canadian regulations require the information to be listed on the label in both English and French. Safety Risk: This error does not affect vehicle safety. Corrective Actions: This is not a recall. Bentley has corrected the tire and loading information label for all new vehicles.

Label — 2026183 — 10 Apr 2026

Issue: On certain vehicles, the tire and loading information label lists an incorrect vehicle cargo carrying capacity. This could lead to overloading of the vehicle and cause poor handling or a tire failure. Note: This recall only affects certain Bentayga Speed models. Safety Risk: Poor handling or a tire failure could cause a loss of control and increase the risk of a crash. Corrective Actions: Bentley will notify owners by mail and advise you to take your vehicle to a dealership to replace the tire and loading information label.
