Trim	Not in the decode	Maker	NISSAN MEXICANA, S.A. DE C.V.
Body	Sedan	Plant	Aguascalientes, Aguascalientes, Mexico

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/nissan/sentra/2016

6 recalls listed by Transport Canada for this model year

Brakes — 2021114 — 4 Mar 2021

Issue: On certain vehicles, the stop lamp switch could fail. If this happens, the brake lights may not turn on when the brakes are applied and it may not be possible to start the engine. Safety Risk: Brake lights that do not work properly could result in road users being confused of the driver's intentions, and increase the risk of a crash. Corrective Actions: Nissan will notify owners by mail and instruct you to take your vehicle to a dealer to replace the stop lamp switch. The dealer will also install a grommet to protect the switch.

Airbag — 2017385 — 4 Aug 2017

On certain vehicles, the passenger's frontal airbag may not deploy correctly due to an issue in manufacturing. As a result of long-term storage, there could be insufficient compression strength of the coolant within the inflator housing of the passenger's frontal airbag, which may cause the airbag to fail to deploy properly in the event of a crash (where deployment is warranted), which could increase the risk of injury to the front passenger occupant. Correction: Dealers will replace the passenger's frontal airbag inflator. Note: This is an expansion of recall 2017-215.

Airbag — 2017215 — 18 Apr 2017

On certain vehicles, the passenger's frontal airbag may not deploy correctly due to an issue in manufacturing. As a result of long-term storage, there could be insufficient compression strength of the coolant within the inflator housing of the passenger's frontal airbag, which may cause the airbag to fail to deploy properly in the event of a crash (where deployment is warranted), which could increase the risk of injury to the front passenger occupant. Correction: Dealers will replace the passenger's frontal airbag inflator.

Airbag

2016302 14 Jun 2016

On certain vehicles, the wiring harness connector for the dual stage passenger airbag may not have been manufactured to specification, allowing the connector to become partially disconnected from the airbag. In the event of a crash, this could result in a non-deployment of the second stage of the airbag which could increase the risk of injury to the passenger. Correction: Dealers will inspect for proper connection and replace the passenger airbag module and wiring harness as necessary.

Seats and restraints

2016179 25 Apr 2016

On certain vehicles, a defect in the occupant classification system could allow an adult sitting in the front passenger seat to be classified as a child or an “empty seat”. This would suppress the airbag, which could increase the risk of injury in a crash. Correction: For affected Altima, Maxima, Murano, Rogue and Sentra vehicles, dealers will reprogram the airbag control unit and the occupant classification system control unit. For affected Leaf, NV200, Pathfinder, Q50 and JX35/QX60 vehicles, dealers will replace the occupant classification system electronic control unit.

Seats and restraints

2016178 25 Apr 2016

On certain vehicles, installing a child seat in the front passenger seat could deform the seat belt bracket. This could cause the occupant classification system (OCS) sensor to fail to detect the installed child seat. In the event of a crash, the airbag would not be suppressed which would increase the risk of injury. Correction: Dealers will reinforce the seatbelt bracket and update both the air bag control unit and electronic control unit.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 23 live listings, as of 26 Nov 2026
[5] Live public dealer listings on Cardog, as of 26 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
