2 recalls listed by Transport Canada for this model year

Label

2026376 31 Jul 2026

Issue: On certain vehicles, the wrong airbag warning labels may have been installed on the driver and passenger sun visors. As a result, the vehicles don't meet the requirements of Canadian regulations. Safety Risk: The airbag warning labels provide information about airbags and child restraint safety recommendations. Not following these recommendations could create an increased risk of injury. Corrective Actions: Mercedes-Benz will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the driver and passenger sun visors.

Lights and instruments

2026218 1 May 2026

Issue: On certain vehicles, a software problem could cause the instrument cluster display to go blank while driving. As a result, you may not be able to see certain information about the vehicle, including the speedometer, fuel gauge, warning lights and malfunction tell-tales. Safety Risk: Warnings, tell-tales and gauges that don't display could increase the risk of a crash. Corrective Actions: Mercedes-Benz will notify owners by mail and advise you to take your vehicle to a dealership to update the infotainment control unit software.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
