Trim	quattro	Maker	AUDI AG
Body	Sport Utility Vehicle	Plant	Bratislava, Slovakia

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/audi/q7/2012

4 recalls listed by Transport Canada for this model year

Label

2023068 15 Feb 2023

Issue: On certain vehicles equipped with 21" wheels, the compliance label lists a gross axle weight rating (GAWR) for the rear axle that's too high. The label should list the rear axle capacity as 1770 kg (3902 lb.). This could lead you to overload the vehicle. Safety Risk: Overloading the vehicle could increase the risk of a crash. Corrective Actions: Audi will notify owners by mail and instruct you to take your vehicle to a dealership to install a label with the correct rear axle GAWR.

Fuel system

2018635 19 Nov 2018

Certain vehicles with a cracked (but not leaking) fuel pump flange were repaired with butyl tape only under a previous recall (please see Transport Canada Recall 2016-443 / Audi campaign 20W9). This is because replacement fuel pump flanges were not available at the time of repair (the butyl tape was used an interim repair). If the fuel pump flange is not replaced, a fuel leak could still occur. A fuel leak, in the presence of an ignition source, could lead to a fire causing injury and/or damage to property. Correction: Dealers will replace fuel pump flange and reapply the protective butyl tape.

Fuel system

2016443 9 Sep 2016

On certain vehicles, the fuel pump flange may develop fine cracks or fissures, which could result in a fuel leak. Leaking fuel, in the presence of an ignition source, could lead to a fire causing injury and/or damage to property. Correction: Dealers will apply a butyl protective film to the fuel pump flange. If cracks are present, the fuel pump flange will be replaced.

Fuel system

2015018 16 Jan 2015

On certain vehicles, a fuel leak may occur in the fuel injection system under certain driving conditions. Leaking fuel in the presence of an ignition source could lead to a fire causing injury and/or damage to property. Correction: Dealers will replace the fuel rails and corresponding fuel injector seals.

> Listed for the model year, not checked against your VIN. Audi confirms which apply.

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] NHTSA recall records (United States), listed for the model year

[4] Cardog market quote, same model year, 3 live listings, as of 28 Oct 2026

[5] Live public dealer listings on Cardog, as of 28 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
