§2 OBLIGATIONS [2]

cardog.app/tools/recalls/nissan/kicks/2021

2 recalls listed by Transport Canada for this model year

Steering

2023428 3 Aug 2023

Issue: On certain vehicles, a problem with the torque sensor in the electric power steering (EPS) system could cause a loss of power steering assist. Note: Vehicles that were inspected under Transport Canada recall 2022-527 also require this inspection. Vehicles that had the steering column replaced are not affected by this recall. Safety Risk: A loss of power steering assist can cause a sudden increase in steering effort and create the risk of a crash. Corrective Actions: Nissan will notify owners by mail and instruct you to take your vehicle to a dealership to inspect the lot code on the steering column torque sensor. The steering column assembly will be replaced, as needed.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 36 live listings, as of 25 Nov 2026
[5] Live public dealer listings on Cardog, as of 26 Nov 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
