cardog.app/tools/recalls/audi/q3/2015

3 recalls listed by Transport Canada for this model year

Lights and instruments

2020468 6 Oct 2020

Issue: On certain vehicles, the ESC warning light may not remain on if a fault was detected on the previous key cycle. Instead, the warning light does not turn on until the vehicle starts to move. Canadian regulations require that the ESC warning light must turn on when the vehicle is started (under these conditions). Note: This problem can only happen if there is a fault related to the power steering system. The power steering warning light would stay on to advise that there is a fault with the steering system. Safety Risk: This small error does not affect vehicle safety. Corrective Actions: This is not a recall. The company has made changes to the vehicle software to correct this issue on all new vehicles.

Lights and instruments

2016427 2 Sep 2016

Certain vehicles may not comply with the requirements of Canada Motor Vehicle Safety Standard (CMVSS) 108 - Lighting System and Retroreflective Devices. In a situation where the parking lights are switched on and the vehicle is locked, the side marker lights do not illuminate, which is contrary to the requirements of the standard. This could reduce vehicle visibility, which could increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will update vehicle software.

Structure

2015143 2 Apr 2015

Certain vehicles may fail to conform to Canada Motor Vehicle Safety Standard (CMVSS) 118 - Power-Operated Window, Partition and Roof Panel Systems. If the vehicle were to be turned off while the sunroof is closing, the sunroof may continue to move towards the closed position instead of stopping, which is contrary to the standard. This could result in injury to a vehicle occupant if they were in the way of the sunroof as it was closing. Correction: Dealers will reprogram the vehicle's sunroof software.

SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 8 live listings, as of 28 Oct 2026
[5] Live public dealer listings on Cardog, as of 28 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
