3 recalls listed by Transport Canada for this model year

Seats and restraints — 2025712 — 19 Dec 2025

Issue: On certain vehicles, the rear outboard seat belts may contain defective automatic locking retractors (ALR). As a result, the seat belts may not work properly to secure a child seat. Note: The vehicle's lower universal anchorage system (UAS) is not affected by this defect and may still be used to secure a child seat. Safety Risk: A seat belt that is used to secure a child restraint but isn't properly locked could increase the risk of injury in a crash. Corrective Actions: Audi will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the rear outboard seat belt(s).

Seats and restraints — 2025503 — 24 Sep 2025

Issue: On certain vehicles, the front seat belt(s) may have been damaged during production. As a result, the seat belt(s) may not hold a person in place during a crash. Note: For the Q4 E-Tron model, this recall affects both Sportback and SUV models. Safety Risk: A seat belt that doesn't work properly could increase the risk of injury in a crash. Corrective Actions: The company will notify owners by mail and advise you to take your vehicle to a dealership to replace the front seat belt(s), as necessary.

Tires — 2024487 — 21 Aug 2024

Issue: Certain tires may have a defect that could cause the tread to separate from the belts. If this happens, the tire could fail. Note: This recall only affects tires with date codes between 1921 and 3224. Safety Risk: A tire failure could cause a loss of control and increase the risk of a crash. Corrective Actions: Continental Tire will notify registered owners by mail to advise you of this problem. You should contact a Continental Tire dealer if you have tires with these date codes or if you need help inspecting them. All tires affected by this recall will be replaced. For Audi owners, Audi will notify owners by mail and advise you to take your vehicle to an Audi dealership to inspect and, if necessary, replace any affected tires.

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
