cardog.app/tools/recalls/mercedes-benz/metris/2019

6 recalls listed by Transport Canada for this model year

Tires

2026167 2 Apr 2026

Issue: On certain vehicles, winter tires with the wrong load rating may have been installed. As a result, the tires may be overloaded. This could cause poor handling or a tire failure. Safety Risk: Poor handling or a tire failure could cause a loss of control and increase the risk of a crash. Corrective Actions: Mercedes-Benz will notify owners by mail and advise you to take your vehicle to a dealership to inspect and, if necessary, replace the winter tires.

Label

2022343 14 Jun 2022

Issue: On certain vehicles, the gross axle weight ratings (GAWR) are higher than the allowable maximum load for the tires. As a result, the tires could be overloaded. Driving a vehicle with tires that are overloaded could cause poor handling and/or a tire failure. Safety Risk: Poor handling or a tire failure could cause a loss of control and increase the risk of a crash. Corrective Actions: Mercedes-Benz will notify owners by mail and advise you to take your vehicle to a dealership to replace the tire and loading information labels on the B-pillar and fuel filler door and provide you with an add-on for the owner's manual. The dealer will also inspect the tires and, if necessary, replace them.

Fuel system

2022103 7 Mar 2022

Issue: On certain vehicles, the connections on the fuel supply hose may not be properly attached. As a result, fuel could leak in the engine compartment. Safety Risk: A fuel leak can create the risk of a fire. Corrective Actions: Mercedes-Benz will notify owners by mail and instruct you to take your vehicle to a dealer to check the upper and lower connections on the fuel transition hose. The dealer will replace the clamps and the fuel hose, if required.

Powertrain

2020256 10 Jun 2020

Issue: On certain vehicles, the propeller shaft may not be properly attached to the intermediate bearing. As a result, the propeller shaft joint could wear out. This could cause vibrations that the airbag (SRS) control unit interprets as a crash and deploy the front airbags. Safety Risk: A sudden deployment of the front airbags without a crash could create a risk of injury. This could also startle the driver, which may lead to a crash. Corrective Actions: Mercedes-Benz will notify owners by mail and instruct you to take your vehicle to a dealer to inspect the propeller shaft and replace it, if necessary.

Electrical

2019515 11 Oct 2019

Issue: Certain vans equipped with an integrated backup battery do not have a cover installed over the front passenger's seat base. As a result, if an object made of a conductive material is dropped into the opening, it could make contact with the battery terminals. This could result in a short circuit. Safety Risk: A short circuit could increase the risk of a fire. Corrective Actions: Mercedes-Benz will notify owners by mail and instruct them to take their vehicle to a dealer to install a cover over the front passenger's seat base. Consumers should not use a seat base with a battery as a storage compartment.

Seats and restraints

2019468 23 Sep 2019

Issue: On certain vans, the front and/or rear seat head restraints may not be properly assembled. This could allow the head restraint housing to come loose and possibly detach. Safety Risk: A head restraint that is loose or detaches in a crash could increase the risk of injury to occupants. Corrective Actions: Mercedes-Benz will notify owners by mail and instruct them to take their vehicle to a dealer to replace the head restraints.

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] NHTSA recall records (United States), listed for the model year

[4] Cardog market quote, same model year, 6 live listings, as of 28 Oct 2026

[5] Live public dealer listings on Cardog, as of 29 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
