Trim	Not in the decode	Maker	NISSAN NORTH AMERICA, INC.
Body	Crossover Utility Vehicle	Plant	Smyrna, Tennessee, United States

§2 OBLIGATIONS [2]

cardog.app/tools/recalls/infiniti/qx60/2014

8 recalls listed by Transport Canada for this model year

Powertrain

2021613 5 Oct 2021

Issue: On certain hybrid vehicles, a software error with the hybrid powertrain control module (HPCM) may cause the powertrain to shut down. If this happens, both the engine and electric motor can turn off, and cause a loss of power to the wheels. Safety Risk: A loss of power to the wheels could increase the risk of a crash. Corrective Actions: Nissan will notify owners by mail and instruct you to take your vehicle to a dealer to reprogram the HPCM.

Seats and restraints

2016179 25 Apr 2016

On certain vehicles, a defect in the occupant classification system could allow an adult sitting in the front passenger seat to be classified as a child or an “empty seat”. This would suppress the airbag, which could increase the risk of injury in a crash. Correction: For affected Altima, Maxima, Murano, Rogue and Sentra vehicles, dealers will reprogram the airbag control unit and the occupant classification system control unit. For affected Leaf, NV200, Pathfinder, Q50 and JX35/QX60 vehicles, dealers will replace the occupant classification system electronic control unit.

Airbag

2015491 20 Oct 2015

Certain vehicles serviced as part of recall 2014-093 or which had the Occupant Classification System (OCS) module replaced during servicing may have been fitted with an incorrect replacement OCS module. An incorrect OCS module would impair the effectiveness of the OCS, potentially failing to properly classify an adult passenger seated in the front passenger seat. This could increase the risk of injury to the occupant in a crash. Correction: Dealers will reprogram the OCS module.

Wheels

2015056 9 Feb 2015

On certain vehicles, The front hub assembly bolts may not have been tightened to specification. If the bolts were to loosen, the brake caliper could separate from the wheel hub assembly, reducing braking performance and affecting vehicle stability. This could result in an accident causing injury and/or damage to property. Correction: Dealers will inspect and torque bolts to specification.

Other

2015031 26 Jan 2015

On certain vehicles the hood release cable assembly may have been installed incorrectly, preventing the latching claw from fully engaging. This could cause the secondary latch to remain in the open position and allow the hood to open suddenly while driving if the primary hood latch was not engaged properly or accidentally released. This could compromise the driver's ability to see the road and its users, as well as cause damage to the windshield, which could result in a crash causing injury and/or property damage. Correction: Dealers will adjust the angle of the hood release mechanism to provide additional length to the release cable.

Wheels

2014162 7 May 2014

On some vehicles, one of the five wheel lug nuts on the right-side wheels may have been installed without being tightened to specification. This could cause the wheel(s) to become loose and separate from the vehicle, affecting vehicle handling and increasing risk of a crash causing injury and/or property damage. Correction: Dealers will verify wheel lug nut torque.

SOURCES

[1] Cardog identity register, decoded from the VIN

[2] Transport Canada recall database, listed for the model year

[3] NHTSA recall records (United States), listed for the model year

[4] Cardog market quote, same configuration, 16 live listings, as of 29 Oct 2026

[5] Live public dealer listings on Cardog, as of 29 Oct 2026

STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
