| Body | Crossover Utility Vehicle | Plant | Smyrna, Tennessee, United States |

## §2 OBLIGATIONS [2]

cardog.app/tools/recalls/infiniti/jx35/2013

**8** recalls listed by Transport Canada for this model year

### Seats and restraints

2016179 25 Apr 2016

On certain vehicles, a defect in the occupant classification system could allow an adult sitting in the front passenger seat to be classified as a child or an “empty seat”. This would suppress the airbag, which could increase the risk of injury in a crash. Correction: For affected Altima, Maxima, Murano, Rogue and Sentra vehicles, dealers will reprogram the airbag control unit and the occupant classification system control unit. For affected Leaf, NV200, Pathfinder, Q50 and JX35/QX60 vehicles, dealers will replace the occupant classification system electronic control unit.

### Airbag

2015491 20 Oct 2015

Certain vehicles serviced as part of recall 2014-093 or which had the Occupant Classification System (OCS) module replaced during servicing may have been fitted with an incorrect replacement OCS module. An incorrect OCS module would impair the effectiveness of the OCS, potentially failing to properly classify an adult passenger seated in the front passenger seat. This could increase the risk of injury to the occupant in a crash. Correction: Dealers will reprogram the OCS module.

### Other

2015031 26 Jan 2015

On certain vehicles the hood release cable assembly may have been installed incorrectly, preventing the latching claw from fully engaging. This could cause the secondary latch to remain in the open position and allow the hood to open suddenly while driving if the primary hood latch was not engaged properly or accidentally released. This could compromise the driver’s ability to see the road and its users, as well as cause damage to the windshield, which could result in a crash causing injury and/or property damage. Correction: Dealers will adjust the angle of the hood release mechanism to provide additional length to the release cable.

### Airbag

2014093 25 Mar 2014

On certain vehicles, the front passenger seat occupant classification system software may incorrectly classify the passenger seat as empty, when it is occupied by an adult. If this occurs, the passenger airbag would be deactivated without the illumination of the airbag warning lamp. Failure of the passenger airbag to deploy during a crash (where deployment is warranted) could increase the risk of injury to the seat occupant. Correction: Dealers will reprogram the occupant classification system.

### Brakes

2013355 16 Oct 2013

On certain vehicles, incorrect antilock braking system (ABS) calibration may result in longer than expected stopping distances during light braking on rough roads. This could potentially increase the risk of a crash causing injury and/or damage to property. Correction: Dealers will update the ABS system software.

### Brakes

2013118 12 Apr 2013

On certain vehicles, the front brake caliper mounting brackets may have been manufactured incorrectly and could fail, which could result in a loss of vehicle control. This could also increase stopping distances. Both issues could result in a crash causing property damage and/or personal injury. Correction: Dealers will inspect and, if necessary, replace one or both front brake caliper mounting bracket(s).

### SOURCES

[1] Cardog identity register, decoded from the VIN
[2] Transport Canada recall database, listed for the model year
[3] NHTSA recall records (United States), listed for the model year
[4] Cardog market quote, same configuration, 17 live listings, as of 28 Oct 2026
[5] Live public dealer listings on Cardog, as of 28 Oct 2026

### STATEMENT OF SCOPE

This record is what public sources held about this vehicle when Cardog read it, each fact cited to its source. It read the VIN decode, Transport Canada's recall listing, NHTSA's recall records, Cardog's market quote and live public dealer listings. Recalls are listed for the model year, not checked against this VIN; the manufacturer confirms which apply. It is not a vehicle history or ownership report, and it carries no owner information.
